

Aspen Bio Chain oil

Produced with people, machinery and the environment in mind.

Aspen Bio Chain oil is a unique, environmentally friendly and high-quality vegetable oil for use with all types of chainsaw chains and bars. The unique composition of oil and additives gives the oil excellent antioxidative properties, meaning it can handle long standstills without negatively impacting either pump or chain.

Aspen Bio Chain oil has very good adhesive characteristics, providing outstanding lubrication and functionality even in extreme conditions. Can withstand temperatures as low as -32° C. It is readily biodegradable (CEC L33-A-93).

- Excellent antioxidative properties
- Optimal viscosity for area of application
- Good adhesive characteristics
- Up to 95% renewable components
- Easily biodegradable

Available in 1, 4, 20 or 208 litre packages.
