

ASPEN DRUM PUMP

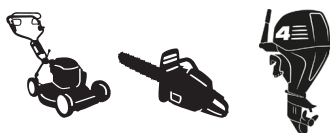

ASPEN DRUM PUMP TELESCOPIC PROFESSIONELL K10C

For diesel, petrol (A1-111) and light mineral oils

Drum pump for transferring the majority of fuels, including diesel, petrol (class A1-111), heating oil, kerosene, some heavy oils together and radiator antifreeze oil and light mineral oils from drums or tanks to smaller containers*. Fits the majority of drum sizes. Supplied with an extendable telescopic tube. The K10 C pump is popular within motor sport due to its usability when transferring/pumping flammable liquids such as petrol and diesel.

Art. 1989 - Aspen Drum Pump Telescopic

Area of use

Product information

Type	Hand pump
Model	K 10C
Capacity	0.25 litre/pump
Viscosity max	150 cSt
Length of telescopic tube	470-925mm
Thread size on drum - double threaded	M64x4 + G2"
Hose length	1,5 m DN 19
Max. temperature	40°C
Diameter	92 mm
Height	257 mm
Weight	2,3 kg

*Complies with the ATEX Directive 2014/34/EC
